Notes to self

```
. Some localization facilities for
    . date
    . datetime
    . strings
    . currency
. Precision for number outpu
```

Date,Time and String Localization Facilities

Notes to Self

- No need to show the app screenshot for this lecture

- Just describe what's to be done and use the docs

- The image on the next slide is just so other lectures can steal the syntax.

XXX

Window titled "String, Date and Time" showing text "Clicked 1 times, double is 2"
